ECL - a provider of reliable, high quality Computer Support - Essex and East London

Welcome

Finding the right IT partner for your business can be a daunting prospect. You only have to search the Internet or open the Yellow Pages to be instantly swamped by companies all offering the same 'unparalleled service'. Words are easy, backing them up is a different matter. We won't make wild claims that are impossible to substantiate, but we will point to our longevity and impressive, loyal and varied client base as evidence that we are the people you should be speaking to, whatever your IT requirements may be.

During 2008 ECL will celebrate its 15th year in business. That's 15 years of providing the business communities of South East Essex and neighbouring regions with a consistently high level of service encompassing all aspects of PC based IT systems.

We are also celebrating achieving Blackberry Alliance Partner status as of January this year, and are in fact at the time of writing quite possibly the only fully affiliated official Blackberry Alliance Partner (Solutions Provider) in Essex. In simple terms if your company is interested in implementing a business grade Blackberry/BES solution fully integrated with your Exchange/GroupWise/Notes email system, or if you already use Blackberry's but are unsure where you stand on support, **we are the ONLY local IT services company who can offer a solution officially backed by RIM/Blackberry.**

For more information please visit our [Blackberry page](#).

The many services we offer include:

- IT Consultancy / Planning
- Support Services, ad hoc or retained
- Network Installations - Microsoft, Novell & Linux
- Network cable systems
- Training

- Supply and support of virtually all major hardware and software brands
- Hardware maintenance

We live in a world where IT companies are here today and gone tomorrow. Whatever the size of your business, if you want the comfort of knowing the planning, installation and on-going development / lifetime support of your IT systems is in the hands of a reliable company with a long and proven history, please don't hesitate to contact us either by telephone or [email](#) using the details shown.
